A park is a kind of a breathing lung; a place where the poor people may go with promptly notify the office and their babies and families and enjoy negligence will be promptly a fresh breath of air. We need a park. Let the mayor and aldermen of this town respond to the necessities of the people and buy us a park. Stop spending money on high-priced officials, who sit around in the shade of the city hall, drinking icewater at the expense of the tax-payers and draw their salaries on the principle that the less they do, the bigger salary they get. We are tired of seeing this city run simply in order to pay the salaries of a few men who are not willing to work. Let us have something for all the people. All the people pay taxes, let all the people enjoy something that this money buys. Waco pays taxes to the amount of about \$100,000 a year. What do we get for it? Demand high-priced officials, who sit around about \$200,000 a year. What do we get for it? Demand of your alderman, and of your mayor that something ba done for your health and comfort. Demand that the streets be sprinkled and that a park be bought. Every year the park question is put off, which only makes it harder to buy, because the ground is going up every year. The Waco Trading Company stands for the people, and believes in tax-payers getting some. thing for the money they pay out for taxes, instead of the city officials getting the whole thing. Tais is our town, then let us make it attractive, popular and inviting.
